Profile

Data Scientist and Computer Science (AI) graduate from Universiti Malaya with hands-on experience in enterprise data pipelines, cloud deployments, RAG-assisted workflows, and automation. Skilled in client-facing solution design, structured problem-solving, and compliance-focused delivery across banking and healthcare engagements. Known for clear stakeholder communication, Agile collaboration, and scalable solution development. Seeking opportunities in data science, technology consulting, and AI-driven advisory roles.

Experience

Kyndryl Malaysia Sdn. Bhd. Jun. 2025 – Present
Associate, Data Scientist Kuala Lumpur, MY

AI Email Processing for Auto-Financing Loan Applications — Local Malaysian Bank

- Led client requirement-gathering sessions to scope an AI automation solution, **reducing manual loan review time by 70%** through end-to-end process redesign and intelligent document processing
- Designed the Azure-based architecture (Logic Apps, Blob Storage, Document Intelligence, Functions) for email monitoring, document ingestion, OCR/NLP extraction, and cross-validation business rules
- Built document classification and data extraction modules that automatically identify document types (NRIC, payslips, bank statements) and extract structured fields with confidence scores
- Developed the cross-validation engine comparing extracted customer details (name, NRIC, income, employer) across multiple documents, flagging inconsistencies for loan officer review
- Produced **audit-ready compliance reports** showing extracted fields, source documents, mismatches, and confidence scores to support governance review

Clinical Genomics Workflow Optimisation — Regional Healthcare Client

- Designed an LLM-assisted evidence retrieval workflow using RAG, **reducing manual variant classification effort by ∼60%** while improving traceability and consistency in clinical decision support
- Built batch processing pipelines and reproducible report generation with full audit provenance across **multiple variant reports**, supporting quality assurance at scale
- Synthesised complex technical outputs into clear, actionable summaries for non-technical clinical and governance reviewers, accelerating stakeholder decision-making turnaround

Universiti Malaya × SkyWorld Development Berhad Apr. 2024 – Mar. 2025
Chatbot Developer (Final-Year Project) Kuala Lumpur, MY

- Conducted stakeholder requirement analysis with the client to define multilingual chatbot objectives and a sentiment reporting framework aligned with SkyWorld's 3-tier and 5-tier business classification structures
- Developed a multilingual chatbot using mBERT and SeaLLM for NLP-based intent classification and sentiment analysis across Malay, English, and Mandarin; Streamlit frontend and MySQL backend
- Engineered aspect-based and hierarchical sentiment analysis with VADER fallback; designed modular FastAPI + MultiLLM architecture for scalable, maintainable deployment
- Trained and evaluated models using Hugging Face Trainer and Tokenizer, achieving high accuracy and F1-scores
- Delivered full client handover with architecture diagrams, evaluation reports, and documentation enabling independent system maintenance and scalability

Setel Ventures Sdn. Bhd. (PETRONAS subsidiary) Aug. 2023 – Feb. 2024
Intern, IT Operations Bangsar South, Kuala Lumpur

- Provided L1/L2 IT support and resolved incidents, contributing to service continuity; managed SaaS platforms (JIRA, Confluence, Slack), user onboarding, and inventory systems (Snipe-IT)
- Coordinated with cybersecurity and infrastructure teams to enhance endpoint protection via Microsoft Defender; supported cloud administration via Google Admin and JumpCloud
- Automated reporting tasks using PowerShell; assisted in IT audit sessions with structured compliance documentation aligned to governance standards

Education

Universiti Malaya Oct. 2021 – Mar. 2025
Bachelor of Computer Science (Artificial Intelligence) Kuala Lumpur, MY

- **CGPA: 3.50/4.00** — Dean's List (Semester 6 & 7)
- Selected as Universiti Malaya representative at the Malaysia AI Nexus Launch Ceremony 2024

Centre for Foundation in Science, Universiti Malaya Jul. 2020 – Apr. 2021
Foundation in Physical Sciences Kuala Lumpur, MY

- **CGPA: 3.63/4.00**

Sijil Pelajaran Malaysia (SPM) Feb. 2018 – Nov. 2019
MRSM Pengakalan Hulu Pengakalan Hulu, Perak

- Result: **2A+ 4A 3A–**

Projects

AI Email Processing Pipeline (PoC) | *Kyndryl × Local Malaysian Bank* Aug. 2025

- Azure Document Intelligence, Logic Apps, Blob Storage, Functions, Python — end-to-end pipeline automating document classification, OCR/NLP extraction, and cross-validation of loan application documents with audit-ready reporting

Clinical Genomics RAG Workflow | *Kyndryl × Regional Healthcare Client* Oct. 2025 – Feb.2026

- RAG pipeline with Bigquery vector database and Vertex AI LLM embeddings for clinical variant classification; integrated OncoKB API and ClinicalTrials.gov for live evidence retrieval on GCP with full audit provenance

Career Coach Chatbot | *Universiti Malaya* Mar. 2024 – Jul. 2024

- Built an interview preparation and resume analysis chatbot in collaboration with UM's Graduate Employability and Career Centre, using OpenAI GPT-3.5 for text generation and SpaCy NER for resume parsing; deployed via Streamlit

PDF Analyzer Nov. 2024

- Built a document summarisation tool using PyPDF2 for extraction, JamAI API for summarisation, and downloadable DOCX output via Streamlit

Technical Skills

AI / ML / NLP: PyTorch, TensorFlow, scikit-learn, Hugging Face (Trainer, Tokenizer), SpaCy, NLTK, FastAI, ChromaDB, RAG pipelines, embeddings, vector databases, model training & evaluation, pandas, NumPy
Programming: Python, SQL (MySQL), Java, PowerShell, JSON, HTML, R
Cloud & Systems: Microsoft Azure (AZ-900, AI-900), GCP, BigQuery, Vertex AI, Azure Document Intelligence, Azure AI Search, Azure Functions, Docker, CI/CD fundamentals, Microsoft Defender
Tools & Platforms: FastAPI, Streamlit, Git, JIRA, Confluence, Postman, OpenAI API, Claude API, Snipe-IT, Microsoft 365
Engineering Practices: API-based architecture, integration testing, batch processing, data pipelines, reproducible workflows, audit trail/provenance tracking, system reconciliation

Certifications

Microsoft Certified: Azure Fundamentals (AZ-900)	Jul. 2025
Microsoft Certified: Azure AI Fundamentals (AI-900)	Jul. 2025
Applications of AI for Anomaly Detection — NVIDIA	Dec. 2024
Ethics of AI (2 ECTS) — University of Helsinki	Dec. 2024
CCNAv7: Introduction to Networks — Cisco Networking Academy	Jun. 2022

Awards & Honours

Dean's List Award — Semester 2, Academic Session 2023/2024 (6th Semester)	Universiti Malaya
Dean's List Award — Semester 1, Academic Session 2024/2025 (7th Semester / Final Semester)	Universiti Malaya

Conferences

Malaysia Artificial Intelligence Nexus Launch Ceremony (MY AI NEXUS) May 2024
Official Representative — Universiti Malaya World Trade Centre, Kuala Lumpur

Languages & Interests

Languages: English (Fluent, Written & Spoken), Malay (Fluent, Written & Spoken)
Interests: Artificial Intelligence, Data Science, Natural Language Processing, Cloud Computing, Technology Consulting, Digital Transformation, System Integration
